

**NO HEART,
*NO AWARD***

Join us in protesting the banquet honoring NV Energy for so-called “excellence in benefits.”

IBEW Local 1245 linemen built NV Energy, working under difficult and often dangerous conditions to keep the power on and make the company profitable.

Now NV Energy is turning its back on us — cancelling our union contract and breaking its promise to pay our medical care in retirement. We say:
No Heart, No Award.
